The figure consists of three vertically stacked line graphs. Each graph has a y-axis on the left with three tick marks and a corresponding label: '1Q' at the top, '1R' in the middle, and '1S' at the bottom. The x-axis for all three graphs is a horizontal line at the bottom, with a small tick mark visible on the far right. Each graph contains a single data series represented by a solid black line. The lines are nearly horizontal, indicating very little change in the measured variable over the range of the x-axis. The lines are slightly curved, showing a very gradual upward slope from left to right.
